INSTRUCTIONS

1. Start by applying a base coat of Snowflake using your fan brush on the outside of the bowl. This will create a bright white background, but will also help if you need to remove a thumbprint for any reason.
2. Next, paint the inside of the bowl, as well as the rim with 3 coats of Chiffon. We used the fan brush for the inside and the medium brush for the rim.
3. Use your medium brush to paint 3 coats of Chiffon to the handles of the bowl.
4. To apply the thumbprints, use a small brush to brush the Red Hot paint to the thumb, then immediately press it onto the bowl. Continue your way around the bowl until you've got the desired amount.
5. Use your detail brush to paint on the leaves for the strawberries, we did 2 generous coats.
6. Finally, use your detail writing bottle to apply white seeds on the strawberries.

TIPS

- Use gentle pressure when adding the seeds to the strawberries.
- If you're doing thumbprints for different children and intend on adding their names later, use a water based marker to write their names on the bowl next to their thumb. If will fire off so make sure to go back and put a name on permanently with paint.
- Be generous with the paint to get the most even color on the strawberries
